

Thank you for being a guest on my podcast! I'm so looking forward to our discussion. There's not a lot of formality to it... just two people having a conversation about how we can make work a better place for people.

WHAT'S THE PURPOSE OF THIS PODCAST?

- In the opening episode I shared why this podcast is so personal for me. Feel free to have a listen!
- My goal is to inspire people at all levels in organizations to create a great experience at work
- How? By leveraging insights from thought leaders and expanding the conversation to people who are in the workplace!
- No formal preparation is required. It's really all about you and your personal experience.
- If you would like to lead the discussion in a particular direction, just let me know before we start the recording.
- Finally, just remember to be yourself and have fun!

- What story do you want to share about the workplace?
- What's your role in making the workplace a place of transformation vs transactions?
